

## The following facts regarding both the business and the building may be of interest...

Annual Profit/Loss statements and tax returns reveal a financially successful and profitable business that provides many seasonal and year-round jobs and supports a number of other independent U.P. and Michigan businesses through the sale of art, books and other products.

Gross sales have increased annually since 2010.

The Falling Rock Cafe & Bookstore is a well-established brand known for community and customer service that is also highly rated on TripAdvisor, Yelp, Facebook, Google and other rating sites.

The Falling Rock experiences a great deal of foot traffic daily during the busy season and has a large and diverse customer base including locals, tourists, seasonal residents and passers-by. Hence, it is a significant and reliable source of referrals to other local businesses as well as a consistent source of information about local attractions.

The four apartments on the second floor of the building have been continuously rented for a decade.

We have developed a Manager & Employee Manual, Vendor lists, and many other resources to facilitate a transition.

Loved the place!”

We would prefer to sell to a buyer who is interested in investing in a community-based year-round business and we are willing to work with a prospective buyer that shares our commitment to Munising and the community of people (near and far) who have supported the Falling Rock over many years.

# “Munising’s Living Room” is... FOR SALE!

We have decided to sell the Falling Rock Cafe & Bookstore along with the building located at 104 East Munising Avenue. It has been a challenging and wonderful 15 years and we are in no particular hurry, but believe that it is time for us to consider alternatives for insuring the sustainability of the business and its impact on the community
